About NIAR:

The National Institute of Amateur Radio (NIAR) is a non-governmental organization established in 1983 and has been promoting amateur radio activity through various programs and Disaster Management activities in the country. The members of NIAR are among the most active and enthusiastic amateurs in the country. With its headquarters at Hyderabad, Andhra Pradesh, NIAR speaks for its members nationally and internationally as well as provides direct member benefits. The institute is celebrating its 25th anniversary on June 21, 2008.

(Panoramic view of NIAR building)

Over the last 25 years, NIAR has been successful in conducting several awareness activities at schools and colleges; organizing training programs and starting Amateur Radio Clubs, bringing publications, Conducting Seminars, Providing Emergency Communications, Dxpeditons, Operating QSL Bureau, representing India in world forums internationally, Liaison with Government for implementing policies and programs for development of Amateur Radio in the country. Numerous awards and appreciation received by us from several government and non government agencies in India and abroad speak about our commitment in achieving the objectives of the organization.

NIAR provides men and material to assist the local administration in any kind of emergency, natural or manmade.

NIAR assists Schools/ Colleges / Individuals to form their own Amateur Radio clubs. The NIAR Club stations VU2NRO is very active on the bands.

The Technical Wing of the institute encourages Volunteer Amateurs to construct their own home made transceivers.

The QSL Bureau is very popular all over the world which does excellent work of forwarding QSL cards for Indian Hams.

NIAR has an excellent collection of books/journals on wireless communication ranging from hobby kits to satellite communications.

All the above activities are organized from very well established eco-friendly spacious buildings owned by NIAR in the heart of the city of Hyderabad.

Objective of the Seminar:

As part its Silver Jubilee celebrations, NIAR plans to bring out a comprehensive road map document to achieve multifold increase in the Ham population and increased awareness of Amateur Radio in India.

Program – Overview:

The Seminar is distributed in 4 sessions between 10.00AM and 4:30 PM followed by group discussions with Tea breaks and Lunch in between.
